Nzamwitakuze Fabrice

Software Engineer

👤 Profile

Results-driven Software Engineer with a decade of experience offering cutting edge engineering solutions and effectively guiding developer teams. Proven expertise in managing all stages of the software development life cycle. Excellent analytical and problem-solving skills to confidently execute software tasks from start to finish.

💼 Employment History

As a software engineer, I've made a significant impact at JTF Rwanda Mining Ltd by developing a robust mineral supply chain management system that streamlines supplier operations. I also spearheaded the NOVA X project, connecting SMEs with investors and providing access to non-collateral funding. Beyond these achievements, I've worked on a variety of academic projects, including e-commerce platforms, MIS applications, and predictive models, constantly driven by innovation and problem-solving.

🎓 Education

bachelor's degree in software engineering, Adventist University of Central Africa, Kigali

February 2022 — November 2025

I am currently in my final year at AUCA, having completed all my coursework. I'm now enrolled in the AUCA Innovation Center, where we are working on innovative projects that we will present as part of our final defense. Upon completion, I will graduate from this level in Nov 2025.

High School, London college od st laurence, Kampala

January 2017 — December 2018

In 2018, I completed my secondary education with a focus on PCB at London College of St. Lawrence in Uganda.

Certificates

1. **NetOps1 Certificate**
2. **Advanced Network Operations 2.0**
3. **Networking Essentials**
4. **The Linux Essentials**
